

Merchant Services - PCI Compliance

PCI DSS Compliance Requirement

The payment brands (American Express, Discover Financial Services, JCB International, MasterCard Worldwide and Visa Inc.) have joined together to create the Payment Card Industry Security Council. The PCI Council has mandated that all merchants who store, transmit or process cardholder information must maintain compliance with the PCI DSS. We, as your merchant service provider, understand the risks and financial costs that a compromise can pose to your business. In support of this important mandate, we are requiring all merchants to validate their PCI DSS compliance status with us.

Please visit us on the Web at https://www.pciapply.com/pci_fi_login.aspx to log in to your merchant account. You must then complete the annual questionnaire to become certified as compliant.
