Disclosures

This presentation has been prepared by First Guaranty Bancshares, Inc. (“First Guaranty”) solely for informational purposes based on its own information, as well as information from public sources. This presentation has been prepared to assist interested parties in making their own evaluation of First Guaranty and does not purport to contain all of the information that may be relevant. In all cases, interested parties should conduct their own investigation and analysis of First Guaranty.

Except as otherwise indicated, this presentation speaks as of the date hereof. The delivery of this presentation shall not, under any circumstances, create any implication there has been no change in the affairs of First Guaranty after the date hereof.

This presentation includes industry and market data that we obtained from periodic industry publications, third-party studies and surveys. Industry publications and surveys generally state that the information contained therein has been obtained from sources believed to be reliable. Although we believe the industry and market data to be reliable as of the date of this presentation, this information could prove to be inaccurate. Industry and market data could be wrong because of the method by which sources obtained their data and because information cannot always be verified with complete certainty due to the limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties. In addition, we do not know all of the assumptions regarding general economic conditions or growth that were used in preparing the forecasts from the sources relied upon or cited herein.

This presentation contains financial information determined by methods other than in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Management uses these “non-GAAP” measures in its analysis of our performance. Management believes that these non-GAAP financial measures allows for better comparability with prior periods, as well as with peers in the industry who provide a similar presentation, and provide a greater understanding of our ongoing operations.

These disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.

A reconciliation of the non-GAAP measures used in this presentation to the most directly comparable GAAP measures is provided in the press release dated April 30, 2020.

Financial information is based off of unaudited financial statements as of March 31, 2020 unless otherwise noted.

Forward Looking Statements

These slides and the accompanying oral presentation contain forward-looking statements, which can be identified by the use of words such as “estimate,” “project,” “believe,” “intend,” “anticipate,” “assume,” “plan,” “seek,” “expect,” “will,” “may,” “should,” “indicate,” “would,” “believe,” “contemplate,” “continue,” “target” and words of similar meaning. These forward-looking statements include, but are not limited to:

- statements of our goals, intentions and expectations;
- statements regarding our business plans, prospects, growth and operating strategies;
- statements regarding the asset quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are based on our current beliefs and expectations and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. We are under no duty to and do not take any obligation to update any forward-looking statements after the date of this presentation.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- our ability to manage our operations under the current economic conditions nationally and in our market area;
- adverse changes in the financial industry, securities, credit and national local real estate markets (including real estate values);
- risks related to a high concentration of loans secured by real estate located in our market area;
- the impact of the Union acquisition;
- our ability to enter new markets successfully and capitalize on growth opportunities;
- significant increases in our loan losses, including as a result of our inability to resolve classified and non-performing assets or reduce risks associated with our loans, and management’s assumptions in determining the adequacy of the allowance for loan losses;
- credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and in our allowance for loan losses and provision for loan losses;
- competition among depository and other financial institutions;
- our success in increasing our commercial real estate and commercial and industrial lending;

Forward Looking Statements (cont'd)

- our ability to attract and maintain deposits and our success in introducing new financial products;
- our ability to improve our asset quality even as we increase our commercial real estate and commercial and industrial lending;
- changes in interest rates generally, including changes in the relative differences between short-term and long-term interest rates and in deposit interest rates, that may affect our net interest margin and funding sources;
- fluctuations in the demand for loans;
- technological changes that may be more difficult or expensive than expected;
- changes in consumer spending, borrowing and savings habits;
- declines in the yield on our assets resulting from the current low interest rate environment;
- changes in laws or government regulations or policies affecting financial institutions, including the Dodd-Frank Act and the JOBS Act, which could result in, among other things, increased deposit insurance premiums and assessments, capital requirements, regulatory fees and compliance costs, particularly the new capital regulations, and the resources we have available to address such changes;
- changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board, the Securities and Exchange Commission or the Public Company Accounting Oversight Board;
- changes in our compensation and benefit plans, and our ability to retain key members of our senior management team and to address staffing needs in response to product demand or to implement our strategic plans;
- loan delinquencies and changes in the underlying cash flows of our borrowers;
- the impairment of our investment securities;
- our ability to control costs and expenses, particularly those associated with operating as a publicly traded company;
- the failure or security breaches of computer systems on which we depend;
- the ability of key third-party service providers to perform their obligations to us;
- the impact of Covid-19 on the economy and our operations
- other economic, competitive, governmental, regulatory and operational factors affecting our operations.

Because of these and a wide variety of other uncertainties, many of which are beyond our control, our actual future results may be materially different from the results indicated by these forward-looking statements.

First Guaranty Covid-19 Actions

- First Guaranty took decisive pro-active measures in Mid-March in order to prepare for the Covid-19 crisis.
- At the direction of Chairman Marshall Reynolds, First Guaranty increased on balance sheet liquidity by \$100 million in late March 2020 with low cost funding.
- As part of that planning, First Guaranty increased corporate bond securities by \$70 million.
- These actions were intended to increase earnings and ensure that there was improved liquidity for potential exigencies.
- First Guaranty has continued to aggressively move its funding costs lower.

CHIEF CREDIT OFFICER – Randy Vicknair

COVID-19 Efforts: Community & Employees

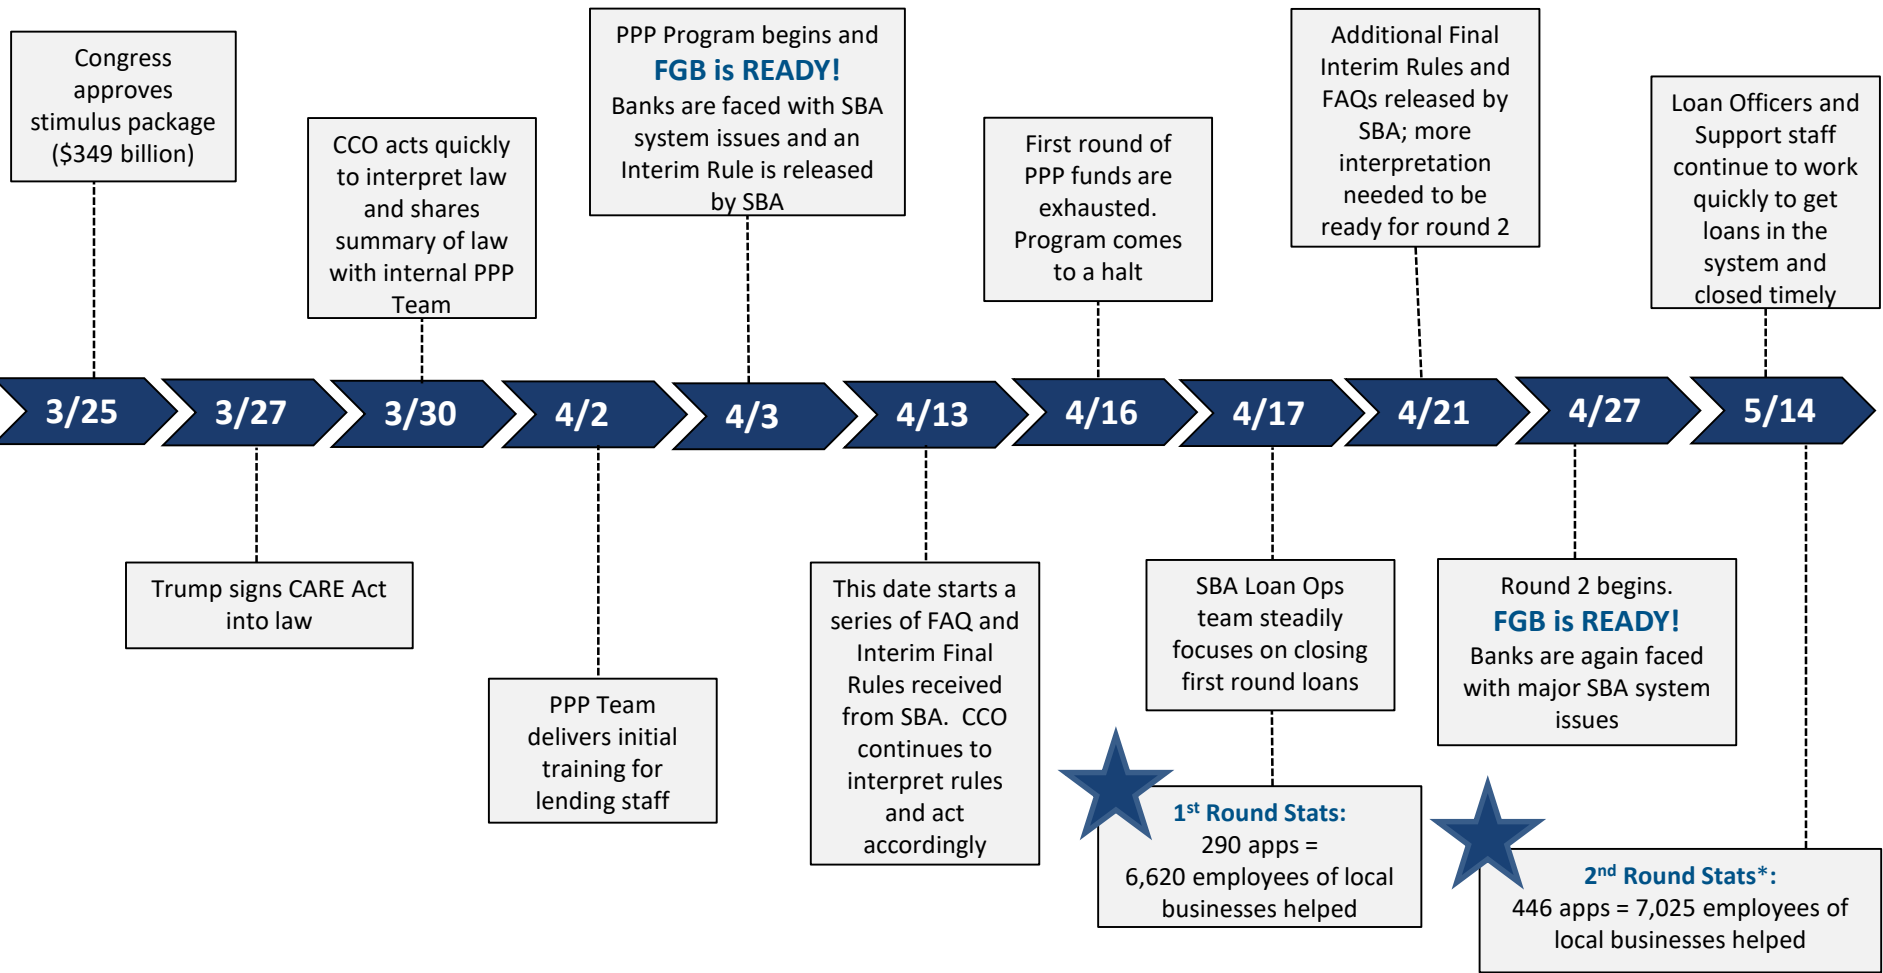

First Guaranty was quick to respond to the financial needs of our community during the early days of the pandemic.
